Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

For example, I travel quite a distance to work. I use my tracphone only for emergencies. If I wanted to pay \$35 or more each month to have continuous use of my phone on the road, I would. I have selected tracphone because I can pay one rate, \$100, for a whole year of service for emergencies only. Please consider phone users such as myself in making your decision.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Patricia Kelly
